THE REPUBLICAN HAS A LARGER CIR CULATION THAN ANY OTHER MORNING PAPER IN THE DISTRICT OF COLUMNIA.

WE DESIRE to call the special atte

our readers this morning to the notices of our new advertisers, which will be to to cove every class of business, and to be of unusual

value.

Tun Chicago Inter-Ocean charges the 8t Louis Globe with stealing its correspondence. Judging from the character of some of the Globe's correspondents, we are inclined to

Some time may be formed of the progre Some times may be formed of the progress of grape sulture and wine manufacture in the United States from the fact that California this year will produce over twotre million gallons of wine, valued at three and one half million dollars; two millions pounds of grapes for table use, and two hundred and fifty thousand pounds of raisins. Forty thousand acres are devoted in California to the cultivation of the grape crop, and it is estimated that eight million acres of land in that State are specially adapted to grape culture.

THE REST THING Mr. Bradlaugh can do is to go home. What good can come from his visit to the United States is more than we can see. If his services are needed anywhere it is in his own country, the Government of which is generous enough to allow him the fullest scope in the discussion of his opinions. Certain portions of his address—that, for its stance, where he says that English aristocrathave a supreme contempt for American re-

Bosros makes a pretty good thing by th annexation of Charlestown, Brighton and West Roybury, which was voted upon last Tuesday, and will be formally carried out the lat of January next. In the first place, the lat of January next. In the arst place, her population will be largely increased, and, in the second, she gains several important commercial advantages, such as an additional water supply, the control of the great stock-yards and slaughter-houses, and ample ground for parks, which are so much needed by the city. Brookline, having failed to vote in favor of nunexation is placed in a some-In favor of numeration, is placed in a some-what awkward position; but it is thought she will reverse her decision at no distant day, will reverse her decision at no distant day, and become one of the spokes of the "Hub."

Some weeks ago a Western clique of politicians started an opposition against Mr. Biaine as the Speaker of the next House of Ranne as the operation. The opposition was based upon an alleged neglect of or indifference to Western interests on the part of Mr. Blaine. The St. Louis Globe has been investigating the subject, and gives its opinion as follows:

"Wo of the West must remember that a Speaker is not elected as the special representative of any local interest. His position, his duties and his responsibility are pre-minently resort Speaker Blaton may be astrong the following the same of the second Speaker Blaton may be astrong that with Western interests. No Essiern man is Congress has ever shown such arrong Western sympathies as Mr. Sinios, and we would certainly regard it as unwise, to say the least, for the West to hesilate in cordially supporting him for re-election to the Speakership."

The situation in Phance is becoming more and more complicated every day, and any prediction based upon the news of one night or even one week would in all probability be completely overturned by the events of the following four and twenty hours. The meeting of the Assembly will not take place until next mouth, and it is impossible to say what may or may not take place in the intervening time. There is no doubt, however, that the republic is being slowly stranged, and that its life can be saved only by a sort of miracle. The proposition of M. Thiers to extend MacMahon's term, which is one of the most recent moves on the board, is at best only a make-shift, and even if successful, cannot be of very great or lasting benefit.

It is now discovered that at the recent

It is now piscovened that at the recent deipal election in Charleston, S. C., many of the Bourton Danocracy "scratched" the mayor, from their tickets, because he is at dopted citizen of German birth. The Bour bon organ in Charleston, the News, admits this to be true. It requires but the slightest Bourbon Democracy of the South to explain the reason for this act. It is that the Bour-bous hate everything which does not bea-the mark of their sham-aristocratic descent Although Wagener had previously served them long and faithfully, they did not heal tate to sacrifies him to the selfah prejudices which animate their political belief. But it served him right. The natural affiliation of the philosophic and liberty-loving race of Germans is with the Republican party.

THE COMING RESCRICTION. The election in this series of Delegates is in many respects one of the most important hat has occurred here since the establishment of the present government. The "of ment of the present government. Jear" is polities we are apt to und mational issues in the contests of the

mational lagues in the contests of the present fail; to yield to our personal grievances and in a great measure to allow the struggle to go by the board. This is a great and grave mis-take, and especially is it a mistake and a blunder so far as this city is concerned. take, and especially is it a mistake and a binneder so far as this city is concerned.

During the political year just about to close the District of Columbia, on account of the peculiar formation of its government, has had to bear the brunt of the opposition to the National Administration. The corresponding of the outside press in this city, acting under instructions from their superiors in the home offices, have pursued the District anthorities with a malignity and a bitterness scarcely paralleled in our history, and by their falsehoods, slanders and misrepresentations have created the impression among the ignorant and the thoughtloss that the local administration of our affairs is one vast sea of corruption, dishonor and dishoussty. They have never missed an opportunity to assall us in every way they could. When Mr. Shepherd was appointed to succeed Gov. Cooke the bribe-takers of Newspaper Row sent forth to their newspapers the lying statement that there was a feeling of indignation in this city bordering almost upon riot against the action of the Precident. We who live here know how false were the assertions of these Algrines—these Barbary niverse and

whom a fat contract could make as sut-re as Spanish pups, and the bare promise very small sum convert from suemies into is. But, nevertheless, their falsehoods recease but, invertible to the country, appring the credit of the District, creating listrast and dissatisfaction, and in, as far as

injuring the creati of the District, creating distrast and dissatisfaction, and in, as far as they could do it, setting back our advancement and prosperity. During the list month the lie has been repeatedly given to their misrepresentations; first of all by the delegation of merchants and business men who waited upon Mr. Shepherd to present their congratulations upon his elevation to the chief executive of the District, and second, in every political meeting that bas been held here since the opening of the present campaign. In every ward and district meeting during the last six weeks his government has been indorsed and not a syllable has been heard in opposition to improvements. But the "Algerines" have studiously ignored all those indocuments, have closed their eyes upon the actual condition of affairs, and still persist in their misrepresentations.

The clauders, that have been see often see

JUDGE WILLIAM LAWRENCE, member

mand and enforce security for these and for life and property; first in some, and prominent in urging or preserving all, the great measures which care for our moral and material interests. And how with the Democratic party? It has not maintained one principle or one purpose for the maintained one principle or one purpose for the the respect of anybody. Its record is one black and eternal blot on our history. It has insertined on its banner: "Shavery extension;" Dred Roott decision; "No power to suppress rehellion;" illustrative of manety and the state of the little of little of the little of little

The war a failure; "Call back your armies." its record and its doom are written, and for it there is no resurrection." THE LATE PANIC is already beginning to be forgotten; business is flowing in its accus-tomed channels; the markets are becoming

eadler, and in a few weeks at the verfarthest we shall be sailing on the same smooth seas, and with all the favoring breezes, that we knew before the financial hurricane of last month. The New York Meering Post sums up the situation as it was, and it is briefly as follows:

Germans is with the Republican party.

"The Lynchurg Firpinian utters iond immentations over the fact that the Republican papers of Washington city manifest a feep interest in the Wennett of the Stration of Stratio

VIRGINIA CAMPATIN.
Republican Meeting at Alexandria—Address of Hua. Joseph Negar.
[Ourrespendence of the Mational Republican, Inc. 1 and Inc. 1

APPEALED TO THE LARGE COLORED AS-APPEALED TO THE LANCE COLORDS AS-SEMBLY.

SEMBLY to say whether a single one of them
was looking to social equality, or whether
they had heard of a single colored man anywhere who was; the reply to which inquiry
was one unanimous and emphasic "No!" was one unanimous and emphatic "No!" He said it was like the charge that the Repub tican party was aiming at negro government in Virginia, either a trick to get votes (rom cerain classes of the white race, or it was dietated by alarm at the progressing popularity of the Republican cause, which forced the Conservatives to seek new issues to get votes upon. It showed that the Conservatives were

shaking m their boots and suuffed defeat.

To the charge that the Republican party were seeking to establish negro rule in Vir-ginia, he said that was simply a question of figures; and figures, all know, never lie. There were in Virginia seven whites to every five colored, and how a race numbering only five to seven could get the accordancy was a proposition comprehensible only by the fright-ened Conservatives, who see a darkey in every bush. This thing of the pure negro rule was a miserable humbug, and no candid man in the State could have a fear for such a result

a miserable humbug, and no candid man in the State could have a fear for such a result. THE MAIN ABQUENET OF THE CONERNATIVES, their great hope for defeating the Republican ticket—that if the latter succeeded there would be in Virginia the same result as in the Southern States, in which the negro and carpet-long government had six-ecceled, to wit enormous increase of public slebt and oppressive taxation—was next considered and interly demolished. He showed, first, that this whole, matter had been grossly exaggerated; that the increase of indobtedness was not as great as represented; that the increase was owing in a great measure to large appropriations for railroads, which was a tabing for the good of the peoplet that is most cases bott political parties aided in making those appropriations; that they were made without reference to party; that in several of the States it was undoubtedly true that be States making appropriations would be much more than relimbursed for the moosey expended by horeoased value of property and sugmented revenue, and by social and commercial facilities.

He took the case of North Carolina. It had been said that her debt had been run up to \$30,000,000, which was true. Rut it was not stated, what was equally true, that at the beginning of the war the debt was nearly \$13,000,000, nor that a large portion of it was for interest accurding from the commencement of the property and tomities that some \$19,000,000 or railroad bonds had been usued by a Republican Legislature, but it was doon on a general call of the people of the State of both political parties, the whole people standing much in

SEED OF RAILROADS AS OUTLETS TO MARKET. Both parties in the Legislature had voted for the apprepriations, but the bonds had been squandered by unfaithful railroad officers; and it was indisjutably true, as be had been informed by several distinguished gentlemen of North Carolina, that the larger portion of the bonds had been made way with by Democrats, who had been intrusted with the negotiation of them. And so in Georgia.

There was a large dobt at the commencement of the rebellion, and it has been considerably increased since, but both political parties made the increase by large appropriations for railroads, the State recerving, however, the first lieu on all the roads constructed; and Governor Confly states officially that the railroads when completed will be worth the full value for which the State is liable.

AND IN LOUGHANA THE DEBT SEED OF BAILROADS AS OUTLETS TO MARKET

AND IN LOUISIANA THE DEBT e commencement of the war was \$10, 00, and has been since greatly increased by appropriations for the levees of Mis oppl and for railroads. But the Governo at the commencement of the war was \$10,000,000, and has been since greatly increased, but by appropriations for the levees of Mississippi and for railroads. But the Governor stated in 1872 that if every railroad which the State had aided should be built, they would be worth four times the amount for which the State was liable, and therefore the State could lose nothing.

In South Carolina, he admitted, the case was a had one, there being a large increase of debt, attended by gross corruption; but it was in evidence before the Ku-Klux committeemen of the very highest standing so certifying—that native white people of the State participated largely in the corruption and villatiny which had so degraded and afflicted her.

Mr. Segar said that the people of the re-constructed Southern States had but followed the example of Virginia. She had

by making large appropriations for public works, and her Southern sisters had done the same thing, though in less degree. Both were right. The indebtedness was well incurred. The States were more prosperous and richer, and the people more comfortable and hap-pier. Such is always the result of appropria-tion for internal improvements.

pier. Such is always the result of appropriation for internal improvements.

Mr. Segar then discussed in an argument of
great power the subject of the James river and
Kanawha canal. He exhibited not only perfect acquaintance with the subject, but powers
t of a very high order, and I do not scruple to
say that if his powerful and eloquent argument of last evening could be repeated through
the State there would be one universal opintion, not only that every interest of Virginia
requires its completion, but that this great
is end can only be certainly and speedily accompilabed by placing the State in fail political
accord with the great party which seems to
have the disposition, and has undountedly
the means, to help her in the concumnation
Other speeches were made by candidates
for the Legislature, and by Mr. Babcock, of
Washington city, but I have not room to note
them.

B.

POLITICAL NOTES.

A CORRESPONDENT WANTS to know how those ancient Democratle politicians, who have worn the hair off their heads by butting against the Republican party, contrive to strout the hay seed on their scaips. We mourfully adult that they do not succeed in so doing. They scatter the hay seed profusely, but it is shed from those shining gourds like water from a duck's back.

The impression prevails among the Southern journals which are still devoted to the Lost Cause, that Beauregard's recent accident on the Buil-Bun battle-field was a judgment. They believe that Beauregard's horse was scared by the ghot of some Confederate soldier, who arose from his grave to rebake the general for trespassing on that sacred ground after proving so recreant to the cause for which the soldier and his conrade died.

A vany sad event happened to a "patent
